This Form 99 is filed to continue the Committee's answer to the Commission's letter dated March 23, 2005. A separate checking account was opened for Levin Funds. When a vendor was paid a check was written from the Levin account for its portion and a separate check was written from the federal account for its portion. To reflect these disbursements, the Levin portion is being reported on Line 5 as Other Disbursements on the Levin report. The federal portion is being reported as an operating expenditure with detailed descriptions in the purpose field.

The Committee has worked extensively with the FEC Electronic Filing office to amend the 30-Day Post-General report.
